USE OF TRAINED INTELLIGENCE ANALYSTS

1. A new registration of members of certain professional groups is being carried out in the Soviet zone of Germany. It concerns primarily physicists, chemists, and interpreters, as well as railroad personnel, who were on duty in Russia during the war. The Reichsbahndirektion was asked to submit the names of persons in the last category to the SMA.
2. The present whereabouts of former military personnel previously registered are being checked. Special attention is given to former members of armored troops, the Navy, and the Air Force; non-commissioned officers and pilots are much in demand.
3. Persons now being registered are not permitted to leave their place of residence without previous clearance from the local komendatura.
